EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with the applicants' attorney Mr. Anthony G. Volini on 7/16/2004.

The application has been amended as follows:

IN THE CLAIMS:

This application is in condition for allowance except for the presence of claims 7,9-13,20,22-26,36,38-78 to an invention non-elected without traverse. Accordingly, claims 7,9-13,20,22-26,36,38-78 have been cancelled.

Allowable Subject Matter

2. Claims 1-6,8,14-19,21,27-35,37,79 are allowed.

3. The following is an examiner's statement of reasons for allowance: the prior art fails to disclose or render obvious a container for product in combination with the other claimed limitations of claim 1:

"a first wall portion extending from the container body to and contiguous with a second wall portion wherein the second wall portion is tapered and extends toward a reduced diameter terminating in an exterior end that has at least one side opening therethrough wherein the valve is actuable to dispense product through the side opening and wherein the first wall portion is non-tapered and lacks any side openings".

Art Unit: 3754

The prior art fails to disclose or render obvious a combination of a container and a dispensing apparatus in combination with the other claimed limitations of claim 14:

"the hollow stem further including a first tapered sealing surface disposed intermediate the side opening and the container body wherein the stem is adapted for engagement with the apparatus to permit dispensing of product through the side opening into the dispensing apparatus; the dispensing apparatus including, a coupling member having a second sealing surface that seals against the first sealing surface forming a continuous seal that prohibits flow of product past the seal".

The prior art fails to disclose or render obvious a container for product in combination with the other claimed limitations of claim 27:

"wherein the container has pressurized product therein in combination with a dispensing apparatus adapted to dispense product and having a coupling assembly and a dispenser inlet valve, wherein the container is engaged by the coupling assembly wherein the hollow stem is adapted for engagement with the dispenser inlet valve to permit dispensing of product through the at least one side opening into a chamber of the dispensing apparatus, and wherein the chamber temporarily stores product prior to dispensing product from the apparatus".

The prior art fails to disclose or render obvious a combination of a dispensing apparatus and a container of pressurized product in combination with the other claimed limitations of claim 28:

"wherein the hollow stem has an exterior end that has at least one side opening therethrough and wherein the hollow stem is adapted for engagement with the

Art Unit: 3754

dispenser inlet valve to permit dispensing of product through the at least one side opening into the dispensing apparatus and wherein the hollow stem includes a profiled end surface and a main body portion and wherein the coupling assembly includes a first sealing element engageable with the main body portion and a second sealing element engageable with the end surface".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
